

Friday, January-01-10

Saturday, January-02-10

They have inflicted real torture on me even during these holidays. They know the government is defeated. Everything in legislation is against us. All career and profession minded people uphold the terrible deeds they do. This is as though us-against-them revisited. East vs. West.

Sunday, January-03-10

I had an uninvited visitor into my apartment yesterday when I was away. This has happened frequently again that I have been aware of.

Thursday, January-07-10

I have made long hand-written entries the past couple of days. There has been a lot of violence placed against me. They are torturing me without end. I know I will win anyways. I will do it all on my own.

The evil did let me sleep last night. I awoke about 5 minutes before my alarm.

Friday, January-08-10

There are continuous violations around me that are designed to harm me.

I got an e-mail delivered into my Hotmail account while I was viewing another.

Saturday, January-09-10

There are very bad experiences at UW – personal and public.

Sunday, January-10-10

I had several e-mail messages from Pat Shandrosky in Shaw Webmail that had been mysteriously moved in the order of appearance on my display page.

P. S. After 12 p.m. I met someone who said something threatening as I got near the apartment door. He used my name and I have never met him. I asked him; pardon me but he did not respond. He was carrying a stick or a pole/bar. I then phoned their caretaker (946 – 0517) but no answer.

As I wanted to make this entry my program was giving me a pop up window and the document did not open.

Monday, January-11-10

They have invented a means to give obnoxious sounds that appear to come from the apartment beneath mine. In this way they are able to deprive me of sleep and disturb the relationships that are to exist between neighbours. Their intention with this is the strategy; people are so numerous and we will be at one another instead of looking at the governing classes – they are supposed to prosper at every misfortune.

The News is full of this type of malady. They only identify as much to show their collective “good” and make it seem that another individual is the problem in society, and not the way society is ‘organized; to fit their own tastes.

Tuesday, January-12-10

Last evening when I came home, Satan's evil doers were experimenting to try and keep me awake differently; this was new and may have taken effort.

The government persuaded my apartment manger immediately. She went right along the injustice. There is some power over others that might be attractive – she anyways fell for the deception. Neighbours have always been known to spy and seek out against others around them and the authorities use that to falsify. This way it looks like the state is really doing their job. Nobody does anything except violate someone else, and more so, when a person works with real issues.

They have done terrible things to me right here around me. The government told Donna (caretaker) about the implant, and I'll never forget the reaction from her when she realized I knew. My hope is she has time to contemplate what she did in trying to help them to frame me and set me up on false investigations. Donna did succeed in the last years for her career and that is good. Usually, a person who supports the authorities with their acts will have reward.

Thursday, January-14-10

When I skip only one day it seems there is such abundance to tell you. You must know!

Friday, January-15-10

Every day and every night there is so much.

They have violated me in every way they can think of. I will win! I will WIN!

Saturday, January-16-10

Sunday, January-17-10

Several occasions have transpired very recently where all around me were taxis and motorists as well as pedestrians, while the last week this activity has quieted.

I should mention that I work alone and a motorist in a van was watching me as though they were trying to do me harm.

Many of these were the things the government got involved against me when I worked on Broadway. The threat of violence is very real and at times there is occasion where I feel it is serious enough that the government is defeated and they are seriously trying to silence me.

There is nobody who speaks up for people; I am the only one.

The University is just full of careerists. They have brought literal hell to my life with their dumb PhD experts. Lloyd Axworthy proves over and again how corrupt the Liberal Party of Canada has been; and may be the political system. The Corporations want no interference with these plans and the government aids them to secure their profits. Yes, the politicians are exactly involved with those schemes. It makes no difference of their colour, stripes, or position and their level.

Monday, January-18-10

A lot of those around me I know have believed the lies of the government. People do this; government does this. The reason is clear to me. They create violence against a person while they preserve their careers and seem to uphold the State. This is so pathetic – but true.

Neighbours go along with lies whether in Hitler's Germany, the Communist Russia, the China of today. When a person has a cop approach to ask their help then it gives the impression of how good a person is to help the government.

I, however, am not afraid. The threats have been real and how they will carry them out I cannot tell. I will win. I will win!

Wednesday, January-20-10

A lot to enter even in just a couple of days. So much that needs to be said. So much has happened.

Thursday, January-21-10

There are a number of corrupt practices going on right now with the earthquake in Haiti. They are planning a fund raising concert. Organizers always pocket the majority. The News comes along and tells the public "how sad the conditions are" in the hope that people will continue to donate, I suppose.

In Manitoba they said \$70,000 was raised and the number is far higher.

The Globe and Mail said \$1.5 million was raised across Canada; this is pure rubbish. Then the article displays again how difficult the agencies with relief just can't get to help those "most" affected. Meanwhile the military is going in with guns – Wow! This is true, Canada; this is Canada! We, the people are harried about by everybody while they are glowing in record profits and wanting more.

P.S. I should also mention that I went into a provincial government office the other day and the service, and I suppose the job itself, was so unappealing. I know they're all out only for their own pay cheque. There is not a single person who defends the people.

Friday, January-22-10

Monday, January-25-10

I did not make an entry, but I certainly could have.

There were personal problems with 2 different security guards at the University on Saturday. I cannot understand the terrible things the UW has been doing to me.

The Supreme Court ruling against the University (Memorial) in Newfoundland is similar, but probably not as violent.

Tuesday, January-26-10

There is a lot of undesirable activity against me.

I phoned The Supreme Court Records for the above mentioned case (file #306170) and the phone number in Ottawa is 613-995-4330.

After the phone all I went out and when I returned my second lock was tampered with.

Early morning one of the neighbours was paying attention to my leaving.

Wednesday, January-27-10

I received some nasty, intrusive e-mail in my Shaw account; hardly any junk e-mail messages have shown up in my Hotmail account for a very long time.

The government interferes with the people in the neighbourhood against me (I know my mentioning this fact earlier already). I always expect some violence. The University treats people exactly like slaves – for the sake of profits.

Thursday, January-28-10

The specific problems at the UW concern also the way of all contract staff treating others the way they will. I saw a couple of days that snow had been pushed right into the Exit door on the side of my own building.

Neighbours here seem to be hired – or for sale, similar to government employees were – to bring harm and harassment to me. There are those times; times of great duress; times where the threats are hard and frequent; where there are CAUSES TO TRY TO SHAME ME (HOPE YOU UNDERSTAND); WHERE SLEEP AND COMMOTION DON'T MIX. These are the obvious and should never happen in normal, ordinary conditions.

I know my work and my ideas upset a lot of people. I do speak freely because we are on the eve of solving the most intricate and delicate problems ever.

Monday, February-01-10

I did get a call back from Queen's Bench Registry about my Court Appeal but the message had been interrupted.

The corruption at University is unbelievable. As it is on Broadway, they also force their staff into unbearable work conditions in the offices. The physical building still has a lot of very old materials – and the dust is nearly 100 years old.

The environment sciences are altogether the same as before.

Tuesday, February-02-10

I found out even more how the people are neglected at UW. This becomes increased as growth, money and careers get the spotlight.

The same phenomena are also true at all institutions and agencies. I suppose large Corporations and businesses have it easiest. There are zero responsibilities.

Wednesday, February-03-10

I saw first-hand yesterday what I always knew about the UW using the computer server as a way to get every detail about every person that contacts the institution and does any dealings there. That is why those ID tags they make people wear are totally unconstitutional.

I had one single Junk e-mail in Hotmail – this happens very infrequently now.

Thursday, February-04-10

I had an incident today at UW where a group of students did particular behaviour to provoke me to violence perhaps. I have sometimes surprised my own self as to how composed I am while in great duress and harassment. They did the same things on Broadway; first real force; then a reprieve followed by a lot of harassment; then intimidation; after that some coercion and then threats; all of the above have lasted for years and I have held up never retaliating.

Yesterday, however, I felt it was necessary to inform the University this occurrence happened with students who were idly whiling away time.

Saturday, February-06-10

Monday, February-08-10

A number of significant things that happened to me can be summarized by saying; the price is high. Human rights must be enforced and it is for everyone.

The government helps others around me (at work and others) to explain the implants to them and they frame the lies around it. People of course believe what the government says, and all the more when their words show personal favour to them. That is to say; people accept the power they have no matter how others were tortured to perfect the application – this is a single, brief example. They did this at home also.

The Free Press gives terrible accounts..!

The News is full of lies..!

The University has not a clue..!

Taxpayers pay for their exuberant lifestyle..!

The police chased me again as I was leaving work Saturday.

I have so much to do that I cannot write every detail all the time.

Tuesday, February-09-10

Another day and there is so much to say to you.

The government tortured me quite a bit yesterday.

Even at this moment they did it twice – consecutively.

I know they know they are defeated. They only have evil as recourse.

Wednesday, February-10-10

There were a number of small incidences.

I noticed a police car in the same spot two consecutive mornings on the way to UW when I exited the Convention Centre tunnel.

I can see what is taking place with the computer setup at the U – it is the same as Corporations, Banks, Governments, and all large entities are doing.

Several e-mail messages appeared yesterday in my Hotmail Junk folder.

Thursday, February-11-10

Hello;

As we consider the way things are in the Canadian state of affairs, we contemplate only the state of the people. In this regard there seems to be room for improvement that is imperative.

This is my work and my ideas. These are the opportunities we have.

Friday, February-12-10

The “ass-lickers” had several ‘unsavoury’ activities when I arrived home last night. I went into a government office yesterday and this also can really irritate the government staff.

Sunday, February-14-10

Thursday, February-18-10

A lot of things have happened in the past couple of days. I have also had many real threats along with them. I know we are right at the point of winning.

Saturday, February-20-10

I received the DVD from Supreme Court.

There was a very fitting e-mail about the International Court of Justice – I will respond to, also. They have recently been using my Windows Live to show me how they tamper with my computer.

Monday, February-22-10

I continue to see how much trouble people around me do to me out of complete ignorance.

Tuesday, February-23-10

I want to let you know that I am pressing on. The people will be completely free.

The International Criminal Court sent me a response. I was on the phone with Shane and he had received a reply from them. I e-mailed the White House yesterday. We have so much hope. I know I will have to do everything alone. Shane rants a lot, but does not know we understand the depth. I will win!

Wednesday, March-10-10

As things seem - and so they are. The truth is getting out there in fine fashion. The authorities are trying to disrupt it, as expected, and trying to create division. They have done incredible acts against me. This is Canada. Everybody does what they are told. Nobody dares to stand for anybody else. The corruption is so deep in the Canadian system. Law is totally undemocratic. University does not even exist in democratic fashion. The Church is dumb and ignorant – or adjusted to the status quo.

My father is supposed to gradually slip into eternity. The WRHA has made a decision similar with the way for mother. Doctors are assholes working for the government too. They are tied to taxpayer dollars. The institutions are all alike. Careers and those who occupy them are the problem.

The entire system will be dealt with in a single Bill. All that was intended to be of public good has vanished. All that was meant as a social benefit has all been taken away. They all stood by and watched our leaders give others everything.

My people will be completely free!

Thursday, March-11-10

I have had several death threats. They may be very real.

Yesterday, I had a Hotmail message from **Neil Hiebert** and the Subject **three messages and one invitation** but how they do this I cannot know.

Very much activity is going on around me every day. I walk confidently; but knowing the threats are there. I did distribute more info packets again yesterday.

Friday, March-12-10

I had the most wonderful discussion on policy-for –the-poor yesterday. Don at WORC has the greatest insight to get the people defended. The business has control of everything - in Manitoba also. He was going to the Minister of Housing yesterday.

The Ministry has real problems; they are blind and in the dark.

The Property Managers are treating the people like dirt. All the tenants have to concede all fundamental rights; privacy, personal property, the differences, etc. That are our goals are taken away from the poor.

If a person wants upward progress, they are subject to illegal questions, which show how badly the legislation misses what they are not doing for the people.

Saturday, March-13-10

Monday, March-15-10

I went on a march and speech against police violence, brutality, and false investigations on Saturday. There was a very good atmosphere. This was by Copwatch, Black Panthers, Femrev, and Elisabeth Frye Society. There was a speech at Public Safety and a non-uniform cop came to take pictures; another at UW, and then one at the Eliason Building. There was the intersection right as we were turning off Ellice Avenue and a police car had to stop and wait for us. As I left there was an unmarked police car and another cruiser within one city block.

The people will win!

This goes to show you how badly the authorities oppress the people.

The RCMP are worse. The city police can do whatever they want.

On Friday, I went to apply for a high-rise apartment. They illegally asked me how much I make.

The RCMP are involved in every detail. The corruption helps the authorities.

I will win against them too. I have no fear; there is no doubt. I will save so many people alive.

All these nice organizations are still missing the point. There is nobody leading. Everybody is lying and out for their own career. Never give a statement to the News. The reporter is nice but the producer will ruin the interview. The Free Press staff are nice and good to have but the editors are the ones who change every story to control and make money.

These nice people are thereby helping the corruption in our society while they are trying to point out the injustice. This sounds strange but true. They have not broken though the code.

The truth will do that. We need a leader. There has to be a leader.

NH

Tuesday, March-16-10

It was almost as though I had a personal police escort yesterday wherever I went. In N.K. and downtown everywhere I turned a corner or came out of a building, cruiser car met me.

There is such joy in the truth. The problem is that the system is built on lies and deception. A further complication arises when the civil authorities all go along – and they do, openly at least. Beyond this, stands the realization that all the ordinary people around us go along until they realize how much injustice exists against everyone. We are taught that a person is the problem in society and few bother to check on the way the system operates until they are told.

NH

Wednesday, March-17-10

There was quite a bit more of the same yesterday. I am right and I will win.

The unmarked police cars have always got closer to me than cruiser cars and they did again the last couple of days.

They really tampered with my computer yesterday.

My neighbours are as obvious as anybody can be. Similar to those at U or property owners and bosses; they betray people because they are in good standing then and make more money. The News can then talk about things – albeit, one-sided.

I am right and the government is wrong.

Thursday, March-18-10

I sent a letter to Housing Minister, Kerri Irwin-Ross yesterday.

Somebody has to show the governing classes what they are doing to us.

I took some environmental pictures to the U yesterday and the response is inexplicably dumb.

Friday, March-19-10

Several things happened yesterday; I was invited to get a Masters Degree, the “scum of the earth” followed me along Hargrave Street, the U students and faculty were very upset at me again. No matter! I will win!

Saturday, March-20-10

There was a person who came to the apartment door and looked me square as I went to retrieve my mail. Exactly what happened when I was stabbed outside that same door.

The government has people who will exercise violence.

Nobody in N.A. has given their life for human rights.

Sunday, March-21-10

I did phone the WPS yesterday to protect the tenants from their landlords and managers. It is so interesting that everybody lives for themselves. The police don't want to do anything for the people; they want to go along with the system. The concern is that this is how ALL careers are set up. This way they all make money; harm the people first, then lie to the people, and last – but not least, steal from the poor. This is true Canada.

I went to a non-violence workshop yesterday and it occurred to me again (like with previous organizations) how badly they also are in need of being educated. I had every attention when I gave a brief introduction what actually happens in the government and law. University is so completely wrong. It hurts me to see this realization. They will turn on their fellow-citizen to keep the truth from getting out to deal with the real issues that are before us. It reminds me also how the RCMP persuaded Amnesty International here in Winnipeg to turn on me. This is the kind of thing a person working with true human rights can expect from everybody. Professors do the same as Pastors.

Monday, March-22-10

Tuesday, March-23-10

I had a very difficult day yesterday; I had a tremendous day at the same time. The fight for human rights is so important. Even if nobody else follows, I will prevail. They tortured me a lot yesterday and didn't let me sleep. They have used this type of strategy and now there are the neighbours whom they try to use. Sleep deprivation is awful form of torture.

Wednesday, March-24-10

They did a little more than sleep deprivation – they tried heart rate manipulation. My neighbours in 45 Hargrave Street have helped them in the similar manner Rocco and Donna did at 49 Hrgrove Street.

Thursday, March-25-10

There has been much interference along with the torture. Yesterday was equal in this. I feel alone, and it's OK with me to know this also. I will proceed no matter what they do to me. Right is on my side and I don't need the liars all around.

Friday, March-26-10

At U they finally gave me a job description what I am responsible to do – although there is much more I take responsibility for to get the workplace functioning. Last night and on Tuesday night someone had come back into my building at the U while I was alone and both times just left some dirt as a sign – that is what I noticed.

Saturday, March-27-10

There was considerable threatening activity again yesterday. Then as I was on my way home and a situation for violence occurred, the evil creation of the implant became obnoxious as if to spur on the danger. I walked away calmly and the evil again inflamed the matter as though infuriated by my ability to win. They had tampered with my answering machine and cut it off. I received an e-mail from the new chancellor at UW.

Sunday, March-28-10

There were cruiser cars around me again yesterday. I have no other choice but to recognize how twisted all at U as also; they are selfish too. All those pretenders... the things they do... then pretend to fool more. Every error they make they also make money trying to point the way to correct.

Monday, March-29-10

Oh, there has been much activity around me. I know how badly Donna and Rocco betrayed into the government. Those around me and act as neighbours are all identical; and very simple. They too are so easy to convince by the police or government. The girl in whatever apartment # below mine is the same way – but pretends! They have been totally obnoxious.

Next door, they were swearing at one another. The girl across from me coughs and snots incessantly, windows {apparently} wide open.

Quite a few beer parties seem to happen and there was some yelling of “shut up” even yesterday again. The managers do nothing. The people have nobody.

I will defeat the secrets in government and business that keep us all poor.

In government they do sometimes talk about how corrupt U’s are.

The Courts will intervene. The legislators will obey. The authorities will follow exactly as I have said. The people will be free.

With all the problems, I am confident. Even now, the people will be freed.

Many, many people will be saved alive!

Tuesday, March-30-10

Last week one day at McFeeters residence, an operative came to watch while I was doing my work. The RCMP control the University. They are agents within and outside. The Winnipeg Police Department do whatever asked – and with pleasure; one may assume.

Yesterday several threats were made to me personally.

I will proceed. I want to solve all the problems alone. Everybody else knows, but people are selfish and at least self-centred, and neither will serve any lasting good – because we have to do the truth for others.

I know I can do it all alone. I will win! My people will all be free!!

Wednesday, March-31-10

They turned off the TV at McFeeters residence during the day.

I want to see if they came up with something new at University today. I did sing a homily while working. The experts are big liars.

The elevator in the bldg. was non-functioning yesterday.

The idea in Canada is to make money. The experts lie, cheat, and steal – from us.

I will set the people free!

Thursday, April-01-10

As is certain, the civil authorities interfere at U with my work.

They managed to withhold my paycheque yesterday too – this was a first.

They do similar things with what I write. There is every form of harassment.

They are deliberately withholding my Masters degree. This is also a fight.

They all want money. They all know my research is completely right.

All U’s copy each other so then they give the impression of authority and the cost is always millions. The young people are supposed to be doing the hard work.

I will win against them all. I will save many, many people alive.

Saturday, April-03-10

Hi; a concern that presses in me is how the government helps, informs, and even pays those around me to violate me. It is interesting; but it is sad. The government helps my neighbours, co-workers, and those I have contact with in any fashion, that they use the implant invention to terribly violate me. They did this with Donna Glover; and she cooperated. They even paid her

and that would seem reward enough for most people. When and exactly how the rewards are given to my neighbours, I do not know. They may do it for free with the notion they are helping for the good. Herein is the tragedy and sorrow; that they are shooting themselves in the foot. The entire system is against all of us, but people believe what an authority figure tells them. I have difficulties with communication since everything gets intercepted. This too, supposedly, would be gratifying for those who have been sequestered to help with the lies in government and how they keep the people poor.

Sunday, April-04-10

Those around me have also been encouraged to disrupt me and my work. This happened blatantly yesterday, and not dissimilar to the way government employees did it; the girl below me and the one across from me – totally obnoxious. Yet, this is what people will do. I had a lengthy discussion with security yesterday night, and it may be the reason for the disturbance I experienced this morning.

Monday, April-05-10

What I also notice is that those who betray will have a change of attitude. The police and government ass-lickers are pure evil in the way they treat a person. They all protect the system and everyone else is protecting themselves. That is why the evil system can function and still be made to look right. Nobody questions anything and nobody asks anything from authority.

Tuesday, April-06-10

There has been much tampering with my vitals; especially my heart. They have changed the human DNA and what this means are several significant. There is no dissent allowed. Anyone who opposes is in danger. I will win I know I will really save many, many people alive. Sometimes that used to seem like a dream. It all sounded like the kind of a thing a future doctor-want-to-be might have in their sights. The medical system does not permit that any more than a legal or educational system allows someone operating in its sphere to tell the truth or deal honestly. Government alone has responsibility for everyone in its sphere and regions.

Wednesday, April-07-10

Several threats came through again; I will win no matter who opposes me. There is also a curious reality I seldom do mention that to dream in very real and wonderful ways. There is also the terrible truth of depriving me of sleep. The man in unit #9 or an accomplice spied on me as I arrived today. I did things differently for that reason. I did it all deliberately, and it worked too well.

Thursday, April-08-10

The government has and does help those who violate me. I know this is temporary. The government needs to act in the interests of the people and there is very, very little of that anywhere. The people believe them temporarily since it appears. There is no doubt that I will win. The pretensions in government will be turned to substance. I cannot help but to remember how everybody in organizations does the same thing to me. No matter; I will win!

Friday, April-09-10

I did have the most wonderful dream the other night about the way that summer is on the way. This might sound trivial, yet we are right on the precipice of change. It will happen for us. I also dreamed something about the way that my honorary Degree was conferred – even if I don't want it.

Friday, April-09-10

This morning both neighbours participated against me while I was doing my home-work. Everybody knows my research is accurate and that is the reason the government pays people off against my work to bring the terrible truth out in to the open and debate the real issues facing the thing they have termed globalization and economics.

Almost certainly the vast majority of people go along with the power structure.

I will win! I will defeat everybody who opposes what is right according to true justice and fairness. These are not fair nor are they accurate.

All inventions have always been one-sided.

The government will obey the same as has happened in the past. One person has to solve all the problems and do all the work.

Today is no exception. I have received the challenge and have graciously accepted the task to save the people alive.

I should also mention that I keep finding my mail is tampered with.

I spoke with Marianne Martin yesterday at ATS (St. Mary's U) to get my Masters Degree.

They are in N.S. and phone # is 902-423-5592. She forwarded me to Alyde Faber (Doctor) @423-2242. E-mail is afaber@astheology.ns.ca.

We will see what she will say.

I know I have enough work and all my research has been done but they will demand course work too – I expect.

Saturday, April-10-10

There has been a problem the way I have not been able to access my password to my computer the last week. Also, when I go to Explorer a dialogue box has asked whether to "Restore my last Session". I have always been concerned that all the electronic, electrical and services in my apartment are located in a room that is being rented to somebody else. The mechanical room should never, ever be given to somebody. I knew in the past where this too has created some problems.

Monday, April-12-10

All the people around me are dirt poor. I know a lot are right down. There exist a great load of problems that are linked to being in such a state. They will believe whatever they are told; this alone is reason for major concerns. Everybody in positions of leadership or authority lies. This is the very basis of the position that they hold. Every career is built up on lying to the people. All around me are those masses – and millions – who have nobody, and they believe everybody.

Tuesday, April-13-10

I had 4 messages lost on my answering machine.

The Google Desktop had kept Sunday's date and time; this was truly new to me. CBC Radio 2 had a strange report on Canadian soldier lost his life and a fellow crying on National Radio.

The system is so corrupt to the foundation.

Every detail of the nation has to reflect money. Leadership is not desired anywhere.

Politically, the NDP and some of the Green Party. Tories and Liberals fight among themselves.

Right now, we have a poor representation in Canada.

Wednesday, April-14-10

There was a considerable bit of that noise around but it does not affect me at all. They have done very bad stuff. All of what happens to me I can forgive. I will proceed to the point where I know victory is; and it is assured. All efforts pay off and even then I must proceed. One victory is not enough. The people are what matters.

Thursday, April-15-10

Much is going on and the News prints very little.

The Manitoba government is talking that we are the internationally-recognized as most environmentally conscious place to do business. Strange, isn't it?

Saturday, April-17-10

I did not although I could have made an entry yesterday.

There is much interference from the civil authorities with human rights and political issues. All organizations go along with the establishment so they appear to be helping the people. In actuality, they are preserving their own well-being – very often with financial incentives.

This is also the reason nobody does anything for the environmental problems created by people's material prosperity. It's totally true; nobody across the country does anything. They all go for their own careers and the way it plays out to the public is like a rivalry from one group to another where all are reaping the rewards. Young people are doing the exact same thing; they are effectively reduced to ineffective change.

Sunday, April-18-10

Monday, April-19-10

It is enough to make a grown man cry like a baby. The things they do to people.

I did receive a phone call from the provincial government to insure my apartment, contents and occupants with MPI. This is how totally corrupt a society does become. Everything in Canada has to generate money. This is one way that the system exploits the public without knowing; it is systemic. The federal government allows phone calls of this type against me.

It is truly most wonderful. I will win. Right is on my side and the people will be free.

Tuesday, April-20-10

There has been persistent activity against me – at home and elsewhere.

They make excessive noises trying to impress me; oh, yes, they just impressed me.

At U there has been a lot of riff-raff with all the young people who are supposed to do me harm; I understand all of that too. And again, they impress me with the influence they have on these wealthy organizations. The purpose is that to keep the people in their place. The people do not understand the system or how the entire system is against us. I know I will win. The more isolated I am, therein is the reality of total victory. There are so many pleasant and wonderful dreams at night. Although so tired, I will win.

Wednesday, April-21-10

Last night they did a terrible noise as I was getting ready to go to bed. A lot of good is happening and they don't like it. The establishment is a true slave-system. They call it all kinds of terms, but the facts are the same as in all history; people must be freed.

Thursday, April-22-10

This a.m. the Google home page made a strange shift over in a few minutes. The day before yesterday there was no response at all as I turned the computer on – a first. The neighbour across the way has been obnoxious from before my alarm went on today. I suppose they try to disrupt my work. I know for sure they understand nothing of what is going on – not even in Winnipeg. The government loves it that people will back bite and worse the person who is working for them.

Friday, April-23-10

The neighbour girls are both very proud of what they are able to do to me and assist the government plans against the people.

Saturday, April-24-10

The evil will not win over me. They may not like me but they will see I told the truth.

Monday, April-26-10

Again, I did not make an entry yesterday, although I sure could have done so. There are many measures of progress against the deeds they have done in secret. The Feds had placed a mail item I had returned back into my mailbox on Friday. Interesting; I had only returned it 2 days before. The activities of my neighbours and their obnoxious participation with the government are as corrupt as anywhere else in the world. They have believed every lie that the establishment deals out to the public. I need to understand this phenomenon too; people were always being deceived – all leaders lie to their own people.
